

Dry, Clean, Safe & Secure Storage In Masterton

Masterton's A1 Self – Storage Is The Most Secure Facility in the Region.

Masterton Storage is a purpose-built facility for securely storing household furniture, boxes and books, cars, vans, trucks, motor-homes, caravans, trailers and horse-floats.

Being purpose-built means we have a range of sizes and spaces and that means you only pay for the size that best suits your needs.

Masterton Storage has insurance company 'approved facility' status. This is because the facility is purpose-built (not shipping containers) and is monitored for fire and burglary 24/7 by Armourguard. This means if you currently have Contents Insurance cover your insurer is more likely to just carry your current policy over maintaining cover.

Masterton Storage Prices

Now we don't know whether you are seeking prices from other storage facilities although, if you are like most people, you will probably do so for your peace of mind about price.

And thereby hangs a tale.

You see we don't ever believe that you can achieve peace of mind on price alone. The only way to be content and perfectly relaxed about a storage facility is to have peace of mind about what that price actually buys you.

And that's what we offer. State-of-the-art security, easy access, and clean and dry premises. Plus no hidden extras. No traps. No surprises.

We'll also contact you regularly just to make sure you're totally satisfied with the arrangements.

Now probably our price won't be the cheapest you could get.

Our prices are moderate and fair. It's always possible to obtain a cheaper price but it should be obvious that the less you pay the poorer the quality and service. We compete on quality and service (in particular, making regular contact with you) not price. The disappointment of a poor service remains long after the joy of a low price.

Masterton Storage Rates

You'll always be quoted a weekly rate but we usually lease the units by the month. The calculation is as follows:

- The weekly rate x 52 (weeks) divided by 12 (months). That equals an average monthly rate.
- That although some people prefer to pay rent by the week this is fine for a stay of 4 weeks or more. Less than 4 weeks incurs a booking fee.
- But however we also have long-term discount. This comes in the form of 6-month blocks. You pay for 5 months in advance and get the 6th month free. That works out to be a 20% discount – very popular.
- We do ask for a bond but quite normal. When you finally vacate your unit, it is cleaned out, and you have returned your security card, we'll refund your bond directly to your bank account.

Holding or booking a unit to secure it

If you wish to book a unit to secure its use but don't need it today, you can but, subject to the following conditions:

- The lease agreement for the unit must signed up immediately.
- You must pay the bond (equal to a month's rent) and the first term's (1 month or a 6 month block) rent within 2 working days of signing the agreement.
- You can have the unit rent free for a maximum of 14 days.
- Only if there are spare units available and it's unlikely we'll run out of vacant ones.

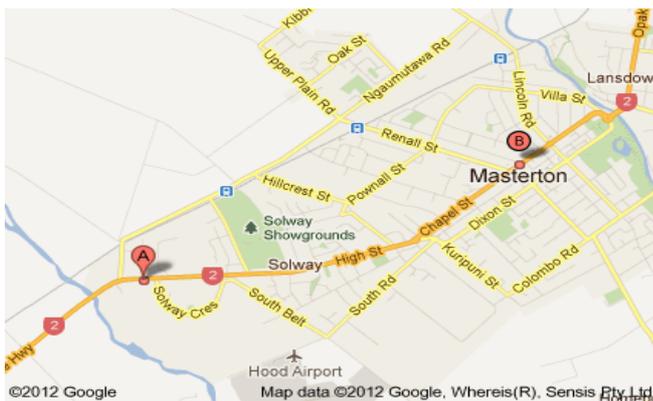

Other Benefits

- 24/7 security & fire monitoring by Armourguard. That means no one can enter your unit without Armourguard or us knowing.
- 90% of all units are individually armed. That means access to your unit is easy and when you disarm your unit all other units remain armed. This also means other users retain maximum security protection to their unit. Of course that security applies to your unit when other users are in the facility and you are not.
- The facility is purpose-built for storage. That means we have the right size for you. No need leasing more space than needed.
- It's a modern facility. That means your property is kept dry and secure.
- 24/7 access to your unit. That means you can come and go when it suites you.
- Easy access and trailer backing not required, or only limited. That means because of the way the property is laid out and because there is plenty of room in the yard to turn, it's easy for those with trailers.
- Unload and load out of the weather. That means if the weather is bad when you arrive, no problem. With 90% of our units, whether you are moving in or out, you'll be able to do this in the dry not getting your furniture wet or damaged.
- There 2 entry points to the property. That means we seldom get too congested with vehicles.
- Notice is not required when you wish to vacate. This means there are no penalties for not giving notice. Your term ends, you give notice you're out, and that's it.
- Extending the lease is easy; just pay another term in advance. That means you have your unit as long as you need it with no pressure to move out.
- Vermin: we don't know of any problems with vermin but we will have if the tenant drops or stores food in or around their unit. We do bait and poison but this is for prevention not cure
